ADVISORY COMMITTEE COMMENTS

Overall, very good and thorough presentation.

I would do a quick review of your PPT slides as I noticed that were a few odd formatting issue (one slide had some random bullet points)

Very nice on project support!

Might want to mention the railroad, just indicate who owns it and how infrequently it is used.

Indicate the quality of the habitat (noxious weeds limited to roads, not pervasive throughout.)

Double check the reptiles and if you have species of concerns
