Mike Ramsey
SRFB/ESRP Grants Manager
Washington State RCO

Mike,

The Hood Canal Coordinating Council is in support of the change in scope for the Lower Big Quilcene River Master Plan project, PRISM #13-1209, from a preliminary design to a conceptual design with alternatives. Continued development of a suite of alternative conceptual designs to address salmon habitat restoration would engage and benefit the Quilcene community and ultimately further community's support of salmon recovery in the area.

Thank you,

Alicia Olivas
Lead Entity Coordinator
