PROJECT DETAILS

Page	Grant Manager Comment
Project Description	Sponsor confirmed they were careful not to over-commit on what can be afforded to avoid discrepancies between the application metrics and what is accomplished in the final report.

METRICS

Page	Grant Manager Comment
Overall Project Metrics	May have an issue with WWRP match -- because all SRFB funding is now aligned to federal requirements and the new Omni Circular. If NLT wants to charge indirect, the two funding sources will require 2 different project agreements. The indirect (if any) will not be eligible to match WWRP.

ATTACHMENTS

Page	Grant Manager Comment
Attachments	Excellent application once again, Joe. Thank you. Please upload the Reach 1 LiDAR map. (And if you can upload an edited version of the presentation made to the review panel on site visit date (sans Busy Wild) that would be helpful.)
