ATTACHMENTS

Page	Grant Manager Comment
Attachments	<ul style="list-style-type: none">• Duplicate attachments: There appears to be 2 copies of the 2010 dam removal feasibility study attached in PRISM. If these are duplicates, please delete one.• Landowner acknowledgement forms are missing from your application. Please attach one from the owner of the dam, Pierce County, and WDFW.• Area of Potential Effect Map: Please attach a map that shows the entire area being assessed. Section numbers must appear in the map.• Attached cost estimate: It refers to the cost of completing the preliminary design. Please revise this to refer to a conceptual design as it is my understanding that a conceptual design is the deliverable of this stage. RCO has very specific definitions of conceptual vs preliminary (permit ready) vs final (construction ready) designs in Manual 18, app D. It is important to be clear and consistent and avoid any false expectations. <p>o Please responds to review panel comments in the designated spot at the end of the proposal, even if you are simply referring to where in the proposal you addressed their concern. Please also revise to correct that you do not intend to develop preliminary designs.</p>
