

City of Bothell™

Grading

Permit Number: GRA2016-12582

Type: Grading

Work Class: Type II

Issue Date: 06/13/2016

Permit Information

Job Address: 17995 102ND AVE NE	Sub Area: Downtown
Parcel: 0826059139	Expiration Date: 06/13/2018
Inspector:	
Description: COB's Sammamish River side channel restoration project reconnects and restores 1,100 feet of an old remnant channel and floodplain of the Sammamish River, located within the Sammamish River Park. Project design goals include: increasing juvenile salmon habitat quantity and quality in a critical reach of the Sammamish River; restoring about over 6 acres of flood plain plant community diversity and structure; restoring flood plain and channel connectivity and function via 2 culverts. No grading to occur on KC parcels; only small areas of clearing, grubbing and restoration, per RCO Land Owner's Agreement (Grant). Project 84065713.03005

5% Tech Fee-Submittal	\$2.46

Agreement

The City approved plans, permit and inspection record must remain on the job site for use by City inspection personnel.

If applicable to your project: Prior to commencing any work, a pre-construction conference is required. Call 425-806-6101 to schedule.

Work performed under this permit must be inspected. See reverse side of this form for instructions.

This permit, the inspection record and the plans approved by the City must remain together in a visible and easily accessible location on the job site for use by City inspectors. Failure to comply with this requirement can result in delayed inspections and imposition of re-inspection fees.

I certify that the information furnished by me is true and correct to the best of my knowledge and the applicable City of

Owner or Agent

The listed inspections below are required for your project. If you are unclear as to what a particular inspection is for, please contact the applicable discipline, as shown.

To request an inspection, call 425-806-6107, and provide the following information, in order:

1. Complete permit number;
2. Jobsite address;
3. Inspection type;
4. Desired inspection date;
5. Preferred time (a.m. or p.m.);
6. Residential or commercial; and
7. Contact name and telephone number.

If you want your inspection the next business day, call prior to 3 p.m. Requests received after 3 p.m. will be scheduled for the second business day.

For occupied residential units, you must be present at the inspection: failure to attend can result in delayed inspections and imposition of re-inspection fees. The inspector will evaluate the work performed for compliance with the City approved plans: Please make sure you follow those plans precisely.

Required Inspections

- | | |
|-------------------------------|----------------------------------|
| 1. Asphalt Inspection | 2. Road Subbase |
| 3. Backfill | 4. Temporary Traffic Control |
| 5. Temporary Patch Inspection | 6. Soils reports/Density Testing |
| 7. Final - CI | 8. Site Precon |
| 9. Erosion Control | 10. Maintenance Bond |

Finally, for Building Permits other than Single Family, please note the Form 55, attached to this permit. This is the form the inspectors from all the applicable disciplines sign once they have completed their final inspections, to indicate your project has been completed and may be occupied or otherwise put into use. This form must remain with the permit and the approved plans.
