Subject: Moga Back Channel Reconnection Project

Dear Kristin:

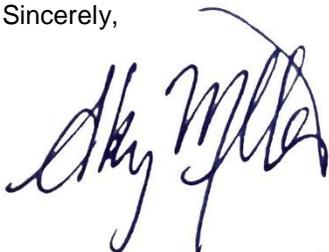

I am writing this letter to provide my engineering certification that the **Moga Back Channel Reconnection Project** has been constructed as designed. I have attached the final stamped engineering drawings for your records.

The Cardno, Inc. engineering team and I provided construction observation throughout the project, making field observations, inspecting and approving delivered materials, surveying elevations, making engineering recommendations, and negotiating/approving small scale change orders.

To that end, I have attached a file of these small change orders with correspondence, field observations, approvals and photographs. I have also attached two engineering drawings showing the details of two of the changes.

I'd like to thank you for having me as a part of this important project. I really enjoyed working with you and Cindy, and am happy the way this project progressed and finished.

Sincerely,

Sky Miller, P.E.
