Re: Port of Skamania's Stevenson Shoreline Project (#14-1125)

Dear Ms. Greene,

The Port of Skamania respectfully requests approval of our revised scope of work for the Stevenson Shoreline project. As you are aware, this became necessary last summer when it was decided that the restoration work included in the original project was not eligible for RCO/ALEA funds. Since that time, the Port has had to complete the restoration efforts in order to prepare the area for the proposed enhancement work. Now that the shoreline in Stevenson has been restored and stabilized, we have revised our scope to ensure that RCO's guidelines are being met. With your approval, we will be able to begin our project for developing an accessible, attractive, user friendly waterfront for members of our community and the thousands of visitors we receive each year.

For the reasons listed above, we have been unable to complete any of the proposed work to date. As a result, we would like to formally request an eighteen (18) month extension for the Stevenson Shoreline Recreational Enhancement Project (ALEA Project # 14-1125). The grant is currently set to expire on July 31, 2018 and we are requesting an extension to January 31, 2020.

Thank you in advance for your consideration, and if you have any questions, please don't hesitate to contact me.

Sincerely,

Pat Albaugh  
Executive Director
